

AC™ PERFORMANCE

The AC Performance is designed to enhance rider comfort with an infinitely adjustable seat and handlebars, a wider step-through and durable, covered stretch pads – all surrounded by a rust-free aluminum frame. To ensure longevity and maintain uncompromising quality ride after ride, the bike has been upgraded with Morse Taper pedal spindles, reinforced seat posts and pop-pin holes, enlarged bearings, and large round adjustment knobs molded with a softer plastic. A stronger drive train and chain make for easy maintenance while delivering an authentic riding experience indoors. It's an innovative and stylish design that keeps us on the cutting edge of the indoor cycling industry – and it will keep your riders coming back time after time.

TRAINING & PROGRAMMING

Schwinn® has come a long way since building the first cycling bike. Today, in addition to manufacturing premium cycling equipment, we are a global organization of passionate Schwinn Master Trainers who educate thousands of instructors around the world every year. The bikes in your cycling room are only as good as the instructors who teach on them, that's why we are committed to developing cutting-edge programming and providing tools that can help any instructor elevate their class experience.

Be sure to ask us about our new Schwinn online certification program.

BUILD ON GREATNESS

At Core Health & Fitness we aim to provide our partners a foundation backed by the strongest brands in the industry. Four iconic brands that pioneered entire categories, and whose machines are still the ones **members ask for by name**. Today, we're committed building on that legacy by providing the best products and programs in every category – and that's greatness you can feel good about building on.
