

AC™ SPORT

The AC Sport is a product of decades of input from users, cycling instructors and fitness buyers. Riders experience enhanced comfort with adjustable seat slides and handlebars, and durable stretch pads. To ensure longevity and maintain uncompromising quality ride after ride, the bike has been upgraded with Morse Taper pedal spindles, reinforced seat posts and pop-pin holes, enlarged bearings, and large round adjustment knobs molded with a softer plastic. These bikes offer many of the high end features of the AC Performance, but on a more affordable, durable powder-coated steel frame.

9-7340	115 lbs (52 kg)	20" (51 cm)	50" (127 cm)	50" (127 cm)	350 lbs (159 kg)

TRAINING & PROGRAMMING

Schwinn® has come a long way since building the first cycling bike. Today, in addition to manufacturing premium cycling equipment, we are a global organization of passionate Schwinn Master Trainers who educate thousands of instructors around the world every year. The bikes in your cycling room are only as good as the instructors who teach on them, that's why we are committed to developing cutting-edge programming and providing tools that can help any instructor elevate their class experience.

Be sure to ask us about our new Schwinn online certification program.

BUILD ON GREATNESS

At **Core Health & Fitness** we aim to provide our partners a foundation backed by the strongest brands in the industry. Four iconic brands that pioneered entire categories, and whose machines are still the ones **members ask for by name**. Today, we're committed building on that legacy by providing the best products and programs in every category – and that's greatness you can feel good about building on.
