Resolute™ Strength Selectorized Line

Diverging Lat Pulldown

Resolve to make your selectorized strength equipment purchase with confidence—choose the Resolute™ Strength line from Precor. It delivers on what matters most: your investment will withstand the test of time.

The Resolute Strength Diverging Lat Pulldown features independent movement arms and ergonomically-shaped, rotating handles that allow the exerciser's arm to travel in a natural movement path. Exercisers can train one arm or both simultaneously or alternately.

Resolute™ Strength Selectorized Line

Diverging Lat Pulldown

Biomechanically Sound

Independent movement arms and rotating handles allow for various natural arm and hand positions during the full range of the diverging motion. The proprietary ergonomic design of the slip-resistant handles optimize grip with less forearm fatigue.

Designed to Go the Distance

The over-sized steel tubing of the Diverging Lat Pulldown contributes to a more durable product while also giving one of the most popular pieces of the Resolute line a timeless, contemporary silhouette. One piece, soft rubber foot caps make the equipment easier to move and will remain in place even if kicked.

Focused on the Experience

The independent movement arms move in a diverging motion, providing a more natural feel, greater range of motion and variety in exercise movement patterns. Exercisers can also target the lats on one side to strengthen the large muscle that helps rotate the arm and pull the shoulder down and back.

Advanced Training with Sony® Advagym

Strength training has gone digital. Add the Sony Advagym training and tracking system, along with the app, to give your exercisers a whole new way to train. Through the Advagym app, personal trainers can prescribe workouts and monitor their clients' progress.

Specifications

Dimensions (L x W x H): 58 x 50 x 81 in / 146 x 126 x 206 cm

Weight Stack Tower Height: 58 in / 148 cm
