Quiet and efficient, we've streamlined the assembly and included diagnostic tools to increase uptime and keep operating costs down.

Product Features

1. P82 Touchscreen Console Connects to Apple Watch®

The P82 console offers a brilliant 15 inch screen that's ergonomically positioned to deliver crystal clear entertainment viewing for exercisers in motion. When networked, it is also a direct-to-exerciser communication portal allowing you an opportunity to build your brand, share information about activities and services, and strengthen the sense of community within your facility. Available with the optional Precor Smart Watch Connector for Apple Watch®.

2. Power Factor Correction (PFC)

The 4 HP high-efficiency AC-motor drive (8 HP peak) is optimized with PFC for increased efficiency, improved performance, and reduced energy consumption by up to 30%.

3. Integrated Footplant Technology™

Integrated Footplant Technology recognizes the exerciser's natural foot speed and matches every stride for an ultra-smooth feel that enhances the workout experience.

4. Ground Effects® Impact Control System

This patented system combines ideal cushioning, support, and stability for exercisers. Precor treadmill decks are designed to absorb more impact in the front where exercisers' feet hit the belt. Added rigidity at the back of the belt allows for a firm push-off.

5. Active Status Light

To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.
