

DPL0541

Discovery™ Series Plate Loaded Line

Incline Press

The Discovery Series Plate Loaded Incline Press features independent movement arms and converging pushing angles to increase the range of motion of the exercise. The progressive strength curve gradually increases force at the end of the movement, when the exerciser is in the strongest position, allowing for increased muscle engagement.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

DPL0541

Discovery™ Series Plate Loaded Line

Incline Press

Independent Movement Arms

Independent movement arm resistance combined with converging and diverging movement paths provide an increased range of motion. Designed with a progressive strength curve to demand greater balance and core muscle engagement, the DPL0541 Incline Press delivers an effective workout.

Ratcheting Seat Adjustment

The ratcheting, gas-assisted seat adjustment features an ergonomic, over-molded rubber adjustment handle, making it easy and comfortable for exercisers to get the right fit.

Oversized Handles

Oversized 1.5 in (3.8 cm) handles make pressing exercises more comfortable by distributing the load over a larger area of the exerciser's hand and reducing strain.

Weight Storage Horns

The six weight horns are optimally positioned for easy load and unload and provide storage for over 800 lb / 363 kg of weight plates.

Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.

Specifications

Dimensions (L x W x H): 43 x 78 x 70.5 in / 110 x 198 x 179 cm

Product Weight: 346 lb / 157 kg

Starting Weight: 12 lb / 5.5 kg

Max Lift Load Capacity: 450 lb / 204 kg

Weight Storage Horns: 6

Frame and Finish: Heavy-duty steel tubing is welded in all structural areas to withstand the most severe environments. Powder coated frame.
