CT850 Light Commercial Treadmill – Built for Performance, Engineered for Durability

Designed to endure the demands of a high-traffic commercial environment, the CT850 treadmill blends superior construction with user-focused features to deliver an exceptional workout experience. The powerful, cool-running 4.0 HP AC drive motor operates smoothly, offering startup speeds as low as 0.3 mph (0.5 kph) while providing consistent torque and power for all types of users.

The CT850 boasts a 22" x 60" (56 x 152 cm) running surface, offering ample space for a natural and comfortable stride. The 1" (2.5 cm) thick, double-sided deck with a 2-ply belt minimizes friction, extending the life of the deck while ensuring smooth performance. Heavy-duty 3" (7.5 cm) front and rear rollers further reduce wear and tear, contributing to long-term reliability. The high-grade steel frame is backed by a lifetime warranty, making the CT850 a worry-free investment for any facility.

The top control panel features a sleek and user-friendly design with direct speed and incline buttons that allow quick adjustments during workouts. Multiple storage compartments provide space for water bottles, phones, and other accessories, while the built-in cooling fan keeps users comfortable during intense sessions.

Ergonomically placed hand pulse sensors deliver convenient, accurate heart rate monitoring, while Bluetooth and 5kHz compatibility offer advanced tracking options. Bluetooth FTMS connectivity further enhances the user experience by seamlessly integrating with popular fitness platforms.

With 17 pre-set programs and 1 custom program, the CT850 offers nearly endless workout possibilities to suit a wide range of fitness goals. Whether users are focused on endurance, fat-burning, or interval training, the diverse range of programs ensures an engaging and personalized workout.

CT850 TREADMILL

- 4.0 horsepower AC drive motor provides superior torque and reliability
- Bright white multi-window LED console is easy to read and simple to use
- Direct speed and incline buttons make workouts more efficient
- Contact and wireless heart rate options to help keep clients in their safe and effective training zone
- Dual-drive motor cooling fans to protect and extend the life of the motor and control board
- Maintenance-free deck system delivers reliable, uninterrupted performance
- Spacious 22" x 60" (56 x 152 cm) running deck to accommodate users of all sizes
