CR800 Semi-Recumbent Bike – Comfort, Performance & Durability

Built for commercial-grade performance, the CR800 Semi-Recumbent Bike combines superior comfort with advanced features to deliver an exceptional workout experience. Its step-through design and easy-to-adjust fore/aft seat with 14 positions allow users to quickly find the most comfortable and secure riding position, making it ideal for all fitness levels. Oversized pedals with a fast-latch system and 2-degree inversion promote natural foot alignment, reducing joint strain and enhancing user comfort.

The perfected gearing system, paired with a 30 lb (14 kg) flywheel and integrated generator, delivers an exceptionally smooth ride while ensuring consistent power throughout each workout. With 40 levels of magnetic resistance and a single-way induction brake, users can effortlessly fine-tune their intensity to match their fitness goals.

The intuitive console offers 1 custom and 10 pre-set programs, providing variety and motivation for users. Hand pulse sensors are conveniently positioned for accurate real-time heart rate monitoring, while Bluetooth/5kHz compatibility ensures seamless integration with external heart rate monitors.

The CR800 features a self-generating power system, eliminating the need for an external power source and reducing facility operating costs. Bluetooth FTMS connectivity allows users to connect with fitness apps and third-party platforms, enhancing the training experience and enabling comprehensive performance tracking.

Designed to provide long-lasting performance and user satisfaction, the CR800 Semi-Recumbent Bike is the ultimate solution for any commercial fitness facility.

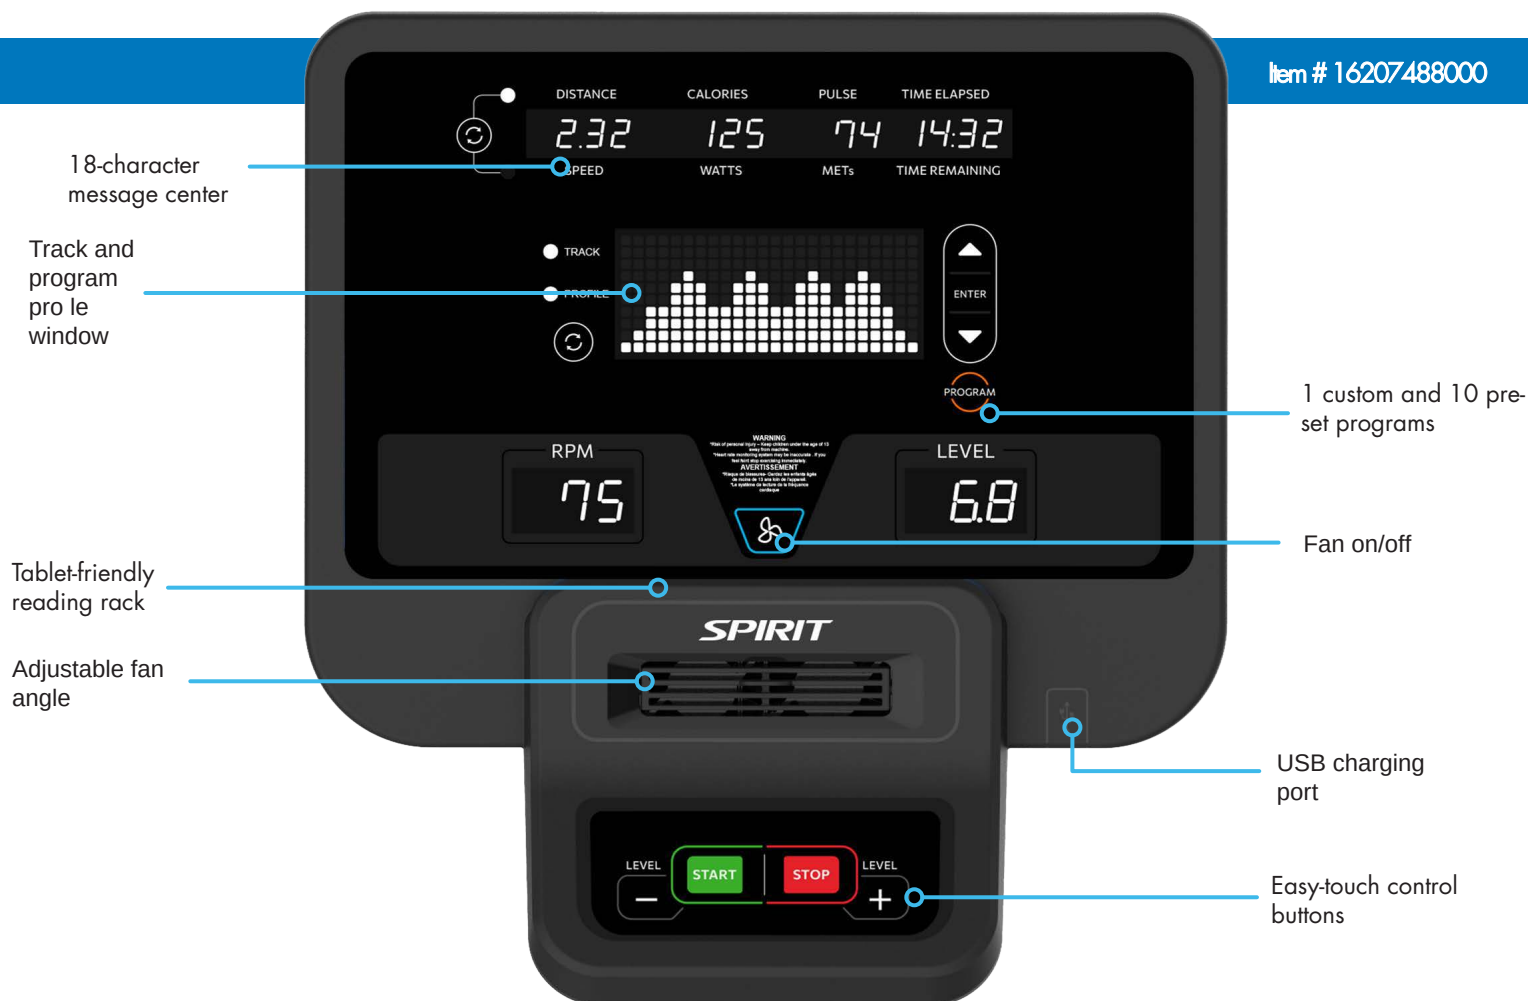

CR800 SEMI-RECUMBENT BIKE

- Built-in contact, Bluetooth and 5kHz heart rate capabilities for a more effective workout (chest strap sold separately)
- 30 lb (14 kg) flywheel provides smooth, consistent power
- Generator-powered console means there is no need for outlets or power cords
- Oversized foot pedals with fast-latching system
- Contoured high-density foam seat for extra comfort during a long ride
- 40 levels of magnetic resistance to satisfy the needs of beginners or advanced users
