CURVE

spec sheet

heads up training

WOODWAY believes in sound biomechanics. Our products are designed to reinforce proper running form while still providing you with the information needed for your workout.

true HIIT

The CURVE allows runners to get up to max effort speed quickly and efficiently. The user can then slow down to a walk or jog for a period of recovery. Working out with multiple people? No problem, platoon on and off the treadmill without needing to touch or reset anything. Move it outside, sure - it's mobile.

game changer

We created the CURVE treadmill from customer feedback and it spawned an entirely new market segment of "curve" treadmills. Our treadmill is patented, smoother, faster, more responsive and quieter. Our slat-belt and our CURVE design changed the game, period.
