CURVE XL

spec sheet

heads up training

WOODWAY believes in sound biomechanics. Our products are designed to reinforce proper running form while still providing you with the information needed for your workout.

extra large

The CURVE XL provides the extra real state needed for large athletes - think NFL lineman and NBA bigs. As with the rest of the CURVE Series, the principle mechanics of operation remain. WOODWAY designed and built this product from customers who loved the CURVE but needed it supersized for their atheletes and training.

game changer

We created the CURVE series of treadmills from customer feedback and it spawned an entirely new market segment of "curve" treadmills. Our treadmill is patented, smoother, faster, more responsive and quieter. Our slat-belt and our CURVE design changed the game, period.
